

Following the successes of previous events, **the 6th International Conference on Manufacturing, Material and Metallurgical Engineering**, will take place in **Osaka, Japan** from **March 25-28, 2021**.

The key goal of the conference is aimed at bringing together academicians, scientists, engineers, and researchers working in various disciplines of these fields to exchange views as well as to share their expertise, experience and research results, and discuss the challenges and future directions in their specialized areas of research in these fields.

## CALL FOR PAPERS

Nanotechnology  
Semiconductors  
Smart Materials  
Optical Material  
Metal Processing  
Materials Physics  
Magnetic Materials  
Composite Materials

High Strength Alloys  
Biomedical Materials  
Polymetric Materials  
Carbon based Materials  
Cellular manufacturing  
Manufacturing Engineering  
Lean and Agile Manufacturing  
New Materials and Performances

Advanced Manufacturing Technology  
Materials Processing and Handling  
Manufacturing system and simulation  
Manufacturing Systems and Equipment  
Manufacturing processes and technology  
Metallurgical Fundamentals and Techniques  
Automation, Control and Information Technology

### PUBLICATIONS

Accepted papers will be published into **IOP Conference Series: Materials Science and Engineering (ISSN: 1757-899X)**. Content will be submitted to the indexing.

### WORKSHOP

Who are interested in organizing workshops are invited to submit a formal proposal, which should include:

- Title
- Expected enrollment
- A description of the technical issues that will address, emphasizing its timeliness
- Presenter/organizer biography
- Length of the workshop: 1.5 hours, 3 hours
